

CALL FOR SPEAKERS

NORTH AMERICA CACS 2019 CONFERENCE

Call for Speakers Deadline: Friday 15 June 2018

Are you an industry expert, thought-leader or passionate professional willing to share your experiences, insights and knowledge with colleagues and peers? For ISACA's 50th Anniversary in 2019, North America CACS is going back to where it all started – to Southern California! **ISACA is now accepting proposals for educational sessions at the globally recognized North America CACS 2019 Conference, which is taking place 13-15 May 2019 at The Anaheim Convention Center!** The majority of attendees are IS professionals with 10+ years of experience in Audit/Assurance, Compliance, Risk, Security and Strategy/Governance roles. This is a great opportunity for you to lead a hot-button session and expand your business network.

ISACA is continually updating and improving our conference experiences, and we are working to make North America CACS 2019 bigger and better than ever. Attendees consistently rank our program content and opportunity to earn CPE credit as the top reasons they come to our conference. We achieve these results by offering the most relevant, engaging and insightful education in the industry and we need YOU to make that happen!

We are expanding our program in 2019 to offer even more options and are looking for the dynamic speakers and important topics that will provide the best possible experience for attendees. This is a great opportunity for you to give back to your profession by sharing your knowledge and insights!

YOUR COMMITMENT...

Attendees have made it clear that having session presentations available PRIOR to the event is a significant benefit and helps them get the most out of each session. In addition, session surveys show that speakers who do not make their presentations available prior to the event often receive lower ratings.

To help ensure that our attendees receive this valuable benefit and are most prepared for each session, **ISACA asks that each speaker commits to submitting their final presentation to ISACA HQ on or (preferably) before Friday, 29 March 2019.** As an added incentive, those who honor this deadline receive **one additional complimentary registration** for the conference. Once submitted, the ISACA's Knowledge and Research Team will review the content to confirm that the presentations are being delivered on the most current and sought-after topics and at the appropriate levels. If there are any questions or concerns regarding the content, ISACA reserves the right to require that changes be made.

BE CREATIVE

Attendees today are looking for more out of their conference education experience—more hands-on learning, more interaction with the presenter, and more opportunities to dive deeper into certain topic areas. We strongly encourage you to consider new ways to incorporate these types of interactions while you are developing your session. Be sure to indicate in your submission how you intend to deliver this interactive type of learning environment.

To improve the chance that your session submission is selected, please clearly demonstrate the following criteria:

RELEVANCE

1. The topic of the session is timely for the industry today.
2. Attendees will be able to relate to the content and apply what they have learned in their roles.
3. The topic must be something that will attract attendees.

INNOVATION

1. The subject matter is cutting-edge or presents new ideas.
2. The content provides a thought-leadership perspective for the conference attendees.

3. Content is presented in a creative and engaging way.

CLARITY

1. The abstract and title of the session demonstrate the intent in a clear and concise way—feel free to be creative.
2. Learning objectives are well-defined.
3. The learning level of the presentation is clearly defined and supported by the learning objectives.

PREPAREDNESS

1. The presenter is knowledgeable and experienced on the topic submitted.
2. The presenter will use different ways to engage the attendees throughout the session.
3. The submission is complete and the presenter is committed to meeting all requirements and expectations.

THE PERKS OF SPEAKING AT NORTH AMERICA CACS 2019...

As an international professional organization with more than 165,000+ constituents in more than 188 countries, ISACA is a leading provider of knowledge, certifications, community, advocacy and education on information systems assurance and security, governance of enterprise IT, and IT-related risk and compliance. ISACA education is recognized throughout the industry. Speakers associated with ISACA education events are similarly recognized as industry leaders and subject matter experts. ISACA is celebrating its 50th Anniversary in 2019, so this is a conference you will want to be a part of!

Speakers who are selected will also receive the following benefits:

- Complimentary registration* for the conference – a \$1,945 value! This includes the opportunity to earn up to 18 CPE hours for conference participation (*complimentary registration is given to 1 speaker per session only***).
- Additional CPE hours for the session they present (*CPE hours for speakers are earned at five times the presentation time for the first presentation of the topic or an extensively modified topic*).
- Access to the Speaker Ready Room at The Anaheim Convention Center from Sunday, 12 May – Tuesday, 14 May.
- Invitation to the VIP Reception on Sunday, 12 May.
- One complimentary pass to the all networking events.

* *Complimentary registration is not transferable or able to be used as a credit. Registration for the pre- and post-workshops are not included with complimentary conference registration.*

Each speaker who submits his or her final presentation to ISACA HQ on or before the deadline of Friday, 29 March 2019, will be granted **one additional complimentary registration for the conference for the person of their choosing in addition to the complimentary registration for themselves.

Any speaker who receives an average score of 4.75 or higher on the session surveys will also receive special formal recognition from ISACA HQ and will be named on the NA CACS web page at the conclusion of the conference. This score will be calculated from the average score of the questions on the mobile app session survey that are specifically related to the speaker and the presentation. At least 20 attendees must respond to the session's survey in order to qualify. Further, the top 5 rated speakers of the conference may be invited back to present again at North America CACS 2020.

SESSION LEARNING LEVELS...

For attendees to have the most beneficial conference experience, it is critical that presentations are delivered at the learning level at which they were described. Please pay special attention to [ISACA's Learning Level Definitions](#) and commit to designing your presentation to fit the description.

Most of North America CACS attendees are IS professionals with 10+ years of experience, so the majority of the submissions that will be accepted will be either **Advanced Technical** or **Advanced Managerial**. We strongly encourage you to submit a presentation that provides this level of content.

Once again, we will be offering “**Master’s Classes**” Sessions, which will be offered for an extended length of time to allow the presenter to go deeper with the given topic and offer more time for discussion. These sessions are for the more advanced attendees and will be at least two hours long. If you have a topic idea that fits well in this category, we welcome your submission!

TOPICS AREAS FOR THE CONFERENCE...

The North America CACS Conference is the premier conference for Audit/Assurance, COBIT, Compliance, Risk, Security, and Strategy/Governance professionals. The list below is neither complete nor restrictive, but rather is intended to stimulate ideas and describe timely topics that might be addressed in session proposals.
